CODING NOTES:

Higher education only

1. Transitional arrangements for pre-2005 students ended on 31 December 2008. From 1 January 2009 the pre-2005 codes are only required for revisions or for retrospective reporting of student data:

Pre-2005 HECS-liable students

- 110 - Deferred all or part of student contribution through HECS-HELP
- 111 - Paid full student contribution up-front with HECS-HELP discount
- 112 - Paid full student contribution up-front without HECS-HELP discount

Pre-2005 PELS students

- 220 - Deferred all or part of the tuition fee through FEE-HELP.

Pre-2005 HECS-exempt students

- 250 - A domestic student holding a Commonwealth-funded, merit-based, undergraduate HECS-exemption scholarship for disadvantaged students.

2. **Code 240** "Received loans through OS-HELP" is not to be used on the Load/Liability File. This code is only to be used in the OS-HELP File. There must also be a matching record on the HELP-DUE File.
3. A domestic postgraduate research student who is not RTS supported may be charged tuition fees or awarded an Exemption scholarship under code 270. If regional adjustment package has been used to support such students, they should be included under code 270.

A domestic postgraduate research student charged tuition fees may receive FEE-HELP assistance.

4. A student's **HECS-HELP status** is determined by assessing the status of all units of study undertaken, in a given course of study, on a given census date.

HECS-HELP eligible students who have deferred all or part of their student contribution amount for any unit of study, within a course of study, on a particular census date, must be reported as deferred for all units of study undertaken as a HECS-HELP student, in that course of study, on that census date.

Therefore, HECS-HELP eligible students may be reported as deferred for a particular unit of study, within a course of study, even though they have paid 80% of the amount reported at Element 384 (Amount charged).

CODE FORMAT: **Data Type:** **Integer**

Width: 8

CLASSIFICATION: **CODE** **MEANING**
00000000 No Help debt for unit of study
00000001 to Liability amount including cents
99999999

CODING NOTES: Values less than 10000000 must have leading and trailing zeros, NOT spaces. For example, \$585 is to be expressed as "00058500" and \$585:45 is to be expressed as "00058545".

PLEASE NOTE:

The amount reported should reflect the correct value for this element at the time of reporting, and should reflect what the provider has told the student. DEEWR will validate this for consistency with all data for a student/course/unit of study census date.

Calculating the Unit of study HELP debt

1. Student has no HELP Debt for the unit of study:

If the value for Element 490 is **not:**

201, 220, 230, 231, 232, 233 401, 402, or 403,

then the value for Element 558 (Unit of study HELP debt) must be **"00000000"**.

2. Student has HELP debt for the Unit of study

(i) HECS-HELP (Higher education Commonwealth supported students only)

- If Element 490 (Student status code) = 201 then calculate the "real value" of Element 381 (Amount paid up front) thus:

For all records for a student/course/unit of study census date, and a value for Element 490 (Student status code) of 201, or 202, sum all values for Element 381 (Amount paid up front) and Element 384 (Total amount charged), then;

- If the sum of all values of Element 381 (Amount paid up front) is greater than or equal to \$500, or is less than \$500 and is equal to 80% of the sum of all values for Element 384 (Total amount charged), then the "real value" of Element 381 for each unit is (the value of Element 381 for that unit multiplied by 1.25)
- If the sum of all values of Element 381 (Amount paid up front) is less than \$500, and less than 80% of the sum of all values for Element 384 (Total amount charged), then the "real value" of Element 381 for each unit is equal to the value of Element 381 for that unit.
- To get the value of E558 (Unit of study HELP debt). Subtract

the “real value” of Element 381 for the unit from the value of Element 384 (Total amount charged) for the unit.

(ii) **FEE-HELP and VET FEE-HELP**

- If Element 490 (Student status code) equals 230, 231, 232, 233, 401, 402 or 403 and Element 381 (Amount paid up front) is less than Element 384 (Total amount charged), then the value of E558 (Unit of study HELP debt) is calculated thus:

Subtract Element 381 (Amount paid up front) from Element 384 (Total amount charged).
