

Transforming the Collection of Student Information (TCSI)

Co-design Contributors

Australian Government
Department of Education and Training

Australian Government
Department of Human Services

Terms of Reference

Contributors will provide information and advice to the Department of Education and Training, Department of Human Services, and the Higher Education Data Committee on the transformation of the collection of student information, including:

- considering the purposes and uses of data and advising on the scope and structure of the collection (including all issues raised in the discussion paper process)
- establishing preferred methods and location of collection and storage of data, that is, provider facing data collection and repository technologies and arrangements
- Providing feedback on design solutions and implementation schedules
- Communicating the outcomes of the co-design with the broader sector and with technology partners (internal IT and software vendors)

The department will provide secretariat support to the contributors.
