

# TRANSFORMING THE COLLECTION OF STUDENT INFORMATION (TCSI)

THE TCSI PORTAL  
7 FEBRUARY 2019

# Overview

- ❖ TCSI – AN UPDATE ON PROGRESS
- ❖ DEMONSTRATION – THE TCSI PORTAL
- ❖ DRAFT 2020 DOCUMENTS FOR COMMENT
- ❖ FIRST TEST CYCLE – OUTCOMES
- ❖ NEXT STEPS

# Portal demonstration

- **File uploads**
- **Outcomes**

- Direct entry:**
- **individual records**
  - **revisions**

**Display of submitted data**

**Videos of Portal activity are too large to upload in PowerPoint.**

Check out the webinar recording if you'd like to see these played back:  
<https://register.gotowebinar.com/recording/39981937994976769>

# PORTAL

- ▶ Portal file upload is the backup for providers that cannot access an API solution

- Takes the full picture for a record (e.g. a student).

This means:

- you don't need to work out what's changed, just report everything that is current for the record

Everything about that record needs to be re-reported in the file if you are adding or revising a record

Note: leaving out a prior reported element will tell our system to remove it

# PORTAL

E313** Student Identification Code	E314 Date of Birth	E402 Student family name	E404 Student given name others	E315 Gender Code	E... ...
E369154	1955-07-23	Munro	Dylan	M	...
E013843	1999-08-29	Oxenbridge	Barbara	F	...

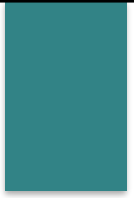

**Example:**

- You report a Student file creating a student record, leaving gender code blank
- The next day/week you just want to add a gender code to the student's record
- You need to re-report everything you have submitted for that Student record

**Videos of Portal activity are too large to upload in PowerPoint.**
